

# Make an Optical illusion Christmas Card

Read the instructions at [letterboxlab.com/make-an-optical-illusion-card](http://letterboxlab.com/make-an-optical-illusion-card)

Cut along the dotted lines to make your spinnable, blendable images! We've included a blank disk so you can design your own too.

This is where you will fold your disk so that to get one design on each side with the rubber band in the middle.
